PROFESSIONAL SUMMARY

Versatile UI/UX Designer with 15+ years of experience crafting high-performing websites and digital experiences for B2B SaaS, enterprise, and agency clients. Known for driving measurable improvements in conversion, engagement, and brand consistency through scalable systems, user testing, and intentional design. Equally comfortable collaborating across teams or leading end-to-end initiatives—from research to launch.

TECHNICAL SKILLS

Figma • Adobe CC • Webflow • Framer • WordPress • Sitecore • Adobe Experience Manager • HTML/CSS • Rive • Lottie • After Effects • Hotjar • Responsive Design • Wireframing • Prototyping • A/B Testing • UX Research • Brand Design • Design Systems • AI Workflow (Claude Code, Cursor, MCP)

Roboro (Freelance) — roboro.ai → Product design lead, web UI/UX

CaloricLab (Hobby) — caloriclab.com → Founder: Brand, Web, SEO, Analytics, AI Development

Visier (FTE) — visier.com → Lead of .com site from redesign through optimization

EXPERIENCE

Senior UX Designer / Design System Lead | **LinkedIn** — Sunnyvale, CA (Remote) 2025—Present

Contract — Co-leading the LinkedIn brand web design system alongside a LinkedIn FTE design system lead.

- Co-led design system strategy, token architecture, roadmap, and sprint planning; run weekly stand-ups and office hours for the broader design team
- Audited 25+ Hire page templates on business.linkedin.com to identify reused content patterns, establishing the component foundation for the design system
- Produced a 60-page standards and guidelines document (PDF + Figma) for external agencies, including ongoing offline design system handoff files
- Delivered a Current State / Future State proposal identifying critical gaps in brand release processes and AEM/LEM CMS build quality — secured organizational buy-in and shifted the team toward a design system—driven model
- Led a full CMS and design system audit, creating component blueprints and a prioritized roadmap for the first design system iteration
- Built the design system foundation including color token architecture, brand color system, and initial component library
- Pioneered AI-assisted design-to-engineering workflow using Claude Code — the only designer on the team doing engineering work — shipping color tokens to LEM CMS, responsive typography fixes, a Lottie Animation component, and carousel control variants
- Secured Claude Code access for the team through internal advocacy; first to establish full local development environment with Claude, Cursor, and MCP tooling
- Demonstrated a live component build and GitHub deployment in an engineering meeting; produced three workflow walkthrough videos featured in company-wide marketing town halls

Lead UI/UX Designer (Web) | **Visier** — Vancouver, BC (Remote) 2021—2025

- Built a scalable, component-based web design system that extended the brand and visual identity across multiple digital domains, inclusive of standards and guidelines
- Created a marketing-facing product UI library in collaboration with product UX to ensure clean, effective representation of key product features
- Led persona-based homepage redesign, reducing bounce/drop-off by ~25%
- Redesigned resource landing pages, contributing to 20% YoY growth in organic/direct conversions

- Reduced request-to-launch time by ~50% through optimized asset creation workflows
- Produced high-impact motion and imagery to enhance user journey and conversions

Senior UI/UX Designer | Dude Solutions (Now Brightly) — Cary, NC

2019—2021

- Co-led website redesign in partnership with a top-tier agency, delivering a flexible, component-based system aligned with brand and UX goals
- Built and executed a strategic web roadmap focused on UX best practices, user feedback, and A/B testing to continuously optimize site experience
- Contributed to +10% improvement in site performance
- Managed vendor partnerships and handled cross-functional requirements and QA
- Winner of Circle of Excellence; site redesign earned runner-up of Global Ace Awards

UI/UX Designer | PrecisionLender / Q2 — Cary, NC

2017—2019

- Collaborated with marketing to elevate and extend brand identity; created a comprehensive brand guide that served as the foundation for a full web redesign
- Directed component-based redesign of the corporate website, hiring and managing a contract developer while personally contributing front-end and all visual design
- Spearheaded redesign and front-end UX of 3rd-party web tools on subdomains to ensure cohesive branding and seamless user experience across the full digital ecosystem
- Implemented heatmapping and remote user testing tools to monitor engagement and iterate on-site performance
- Designed and developed a fully branded event site, overseeing dev agency selection and execution
- Delivered fully integrated marketing campaigns — social ads, banners, landing pages, and collateral — ensuring visual consistency and strong UX at every touchpoint
- Optimized site experience and campaign performance, resulting in +22% pages/session, +30% session duration, and -30% bounce rate on key pages
- Contributed to brand excellence and digital maturity that helped position the company for acquisition

UI/UX Designer | Idea Marketing Group — Yorkville, IL

- Delivered custom WordPress sites, wireframes, and animations
- Designed logos, branding, and high-converting digital campaigns
- Improved design-to-dev handoff and reduced delivery timelines

Senior Designer | Trittenhaus Design — Sycamore, IL

- Delivered responsive websites, brand systems, and cross-channel campaigns
- Provided full-cycle execution from UX to final dev handoff and QA
- Elevated client outcomes with high-impact design work and time-saving systems

Senior Designer | Image Perspective — Rolling Meadows, IL

- Led web redesign and WordPress site dev for clients at a small creative agency, with additional work in branding and digital campaigns

Web Designer / Sr. Multimedia Specialist | Career Education Corp. — Schaumburg, IL

- Held dual roles spanning UI design for 80+ websites and internal tools, as well as leadership in multimedia training content and student portal UX
